1. INTRO

This is my invitation for you
Are you ready to get in my inner world?
So just listen

Music: Emre Bayar
Lyrics: Gülçin Ergül

2. DON'T WAKE ME UP

It's time
I'm letting go of all my fears
Let my guard down
That's when you caught my eye
Surprised
I didn't know a face like yours existed
I'm weak for you
How could I ever resist it

When you take my hand flowers start to bloom
Your words light up the room
My grey skies turn to blue

Baby please don't wake me up from this love
Can't you see, you're the dream
I don't want to wake up from
Baby please don't wake me I'm not giving up
Just let me believe you're the one
Until the morning comes

I've been hurt so many times before
I thought illusion couldn't fool me anymore

When you take my hand flowers start to bloom
Your words light up the room
My grey skies turn to blue

Baby please don't wake me up from this love
Can't you see, you're the dream
I don't want to wake up from
Baby please don't wake me I'm not giving up
Just let me believe you're the one
Until the morning comes

Music: Gülçin Ergül, Emre Bayar
Lyrics: Josephine Afua Zwaan, Gülçin Ergül

3. WRITTEN IN THE CLOUDS

Sure as the sea
You take me cross the water
Even in my dreams
You draw me closer
Summer, spring and winter
They remind me of you
But none of their colors
As beautiful as you

I have tunnel vision of love
At the end there's only you
If I tell you I'm blind to the others
Would you say it, too?

It's written in the clouds
It's all over
Can you hear the whispers in the wind
It's hot like the sun on my skin
But like the sun will our love burn instead

It's written in the clouds
It's all over
Can you hear the whispers in the wind
And as the sun will take in our love
Tell me will you tell the world about us

I have tunnel vision of love
At the end there's only you
If I tell you I'm blind to the others
Would you say it, too?

It's written in the clouds
It's all over..
It's hot like the sun on my skin
But like the sun will our love burn instead, oh

t's written in the clouds
It's all over
Can you hear the whispers in the wind
It's hot like the sun on my skin
But like the sun will our love burn instead

It's written in the clouds
It's all over
Can you hear the whispers in the wind
And as the sun will take in our love
Tell me will you tell the world about us

Can you tell the world about us

Music: Gülçin Ergül, Emre Bayar
Lyrics: Josephine Afua Zwaan, Gülçin Ergül

4. I JUST WANNA BE YOUR GIRL

I'm gonna tell you a story
Listen

After I saw you the first time
I talked to myself
I gotta keep it to myself
(I gotta keep it to myself)
Whenever I saw you again
You looked me in the eye
Gotta lose the connection I
Can't keep it all inside

I just wanna get to know you better than I know ya
I just wanna kiss you till the break of dawn
I just wanna get along with you, yeah
I just wanna, I just wanna be your girl

your girl
your girl
your girl
your girl

After I decided to text you on the phone
Tuned the green lights on
Added a blushed smiley face, uh
I smiled as you wanted me to keep you well informed
Well I kept you informed
Maybe even more

Lyrics and Music: Gülçin Ergül

5. SUPERFICIAL LOVE

My eyes are closed
But my heart is open
There's nothing logical about my tears
True colors are shown
I loved your flaws
There's nothing magical about our fears

Those feelings
My fault
I turn you loose

I'm a woman who lives with her heart
I know I'd never be as wise as you are
All I do is think about you and your lies
my soul's crying over a superficial love

My love is pure but my heart is broken
That's not sensible why do I still feel for ya
Perfection can be an illusion
There's nothing flawless
They're all delusions

Lyrics and Music: Gülçin Ergül

6. We're Not Meant To Be

It took the first week
To hear those complements
I loved the week we had the sweetest kisses
The next week you walked away with no attention given
It's been a week since we're apart

We're not meant to be maybe
You watched the trailer and left me
I know I might not be easy baby
What happened to those promisess you gave me
We're not meant to be maybe
You watched the trailer and left me
I know I might not be easy baby
And you're not willing to tell me you miss me

It will take a few weeks to realize what's wrong with us
I Wont feel right the first two weeks after the break up
Another week and I'll be over the hurt and all the pain
Then I'll be laughing at the reasons why I cried before

We're not meant to be maybe
You watched the trailer and left me
I know I might not be easy baby
What happened to those promisess you gave me
We're not meant to be maybe
You watched the trailer and left me
I know I might not be easy baby
And you're not willing to tell me you miss me

Ooh, boy, you watched the trailer and left me
Maybe we're not meant be, baby

Lyrics and Music: Gülçin Ergül

7. I Dont Want You Back

I don't want you back
That's what I said
You're only trouble
Forget what we had
Look how I've moved on
Cuz you were so wrong
it's too late now
it's a no, I'm gone
I don't want you back
That's what I said
Forget all the snuggles
And the times we spent
Look how it's turned out
To be the best love you'd die for
It's too late now
It's a no, I'm gone

No no no no
I don't want you back
No, No
It's too too late to tell me that you're there for me

I dont want you back
Because you said
You're never enough for me
You're not man enough, yeah yeah
Look how I handled this
I'm through with it
Pull myself back together
It's a no, I'm gone
I don't want you back
Because you said
You can't be there for me
Whenever you're needed
Look how it's turned out
To be the best love you'd die for
It's too late now, it's a no I'm gone

Lyrics and Music: Gülçin Ergül

9. MY ONE AND ONLY LOVE

Pout, fuss and fight
No need to pout, fuss and fight
Ain't gotta be wrong or right
I'm in your arms tonight

I'm shakled and chained
Still the feeling remains
So what else can we do
You're tied to me I'm tied to you

And I know I can never let you go

My one and only love
I melt like a candle for you
Every moment without you is a waste
Incomplete till your arms are around me
My one and only love
I burn like a candle for you
All I need in this world is you
I'm begging you don't ever leave me

C'mon y'all

No we won't back down
Won't let them knock us around
Yeah laughing we'll never frown
As long as we're around

Makers will make
And the breakers will break
You see we already made
No we won't ever fade

And I know I can never let you go

My one and only love
I melt like a candle for you
Every moment without you is a waste
Incomplete till your arms are around me
My one and only love
I burn like a candle for you
All I need in this world is you
I'm begging you don't ever leave me

C'mon y'all

My one and only
One and only
One and only love
I melt like a candle for you
Every moment without you is a waste
Incomplete till your arms are around me
My one and only love
I burn like a candle for you
All I need in this world is you
I'm begging you don't ever leave me

C'mon y'all

My one and only love
